Enchanted Princess at a glance

To construct Enchanted Princess it took:

- 3 million man hours
- 37,000 tons of steel - more than 1.5 times the weight of New York's Statue of Liberty
- 4,000 km (2,484 miles) of electrical cable - more than enough to travel between the UK Princess Cruises office in Southampton and St. Petersburg, Russia.
- 360,000 litres (95,000 gallons) of paint - more than twice what is reportedly used per year on the Golden Gate Bridge
- 200 tons of marble - more than 30 times the amount of marble in Michelangelo's famous David statue
- Enchanted was due in June 2020
- First keel was laid in February 2019
- Fourth and fifth ship of the Royal fleet, marking Enchanted as the 100th passenger vessel constructed by Fincantieri

Enchanted Princess has:

- A top speed of 23 knots - equal to 26.5 miles per hour
- 15,000KW of transverse (sideways) thruster power - the original Love Boat, Pacific Princess had a forward propulsion power of about 13,500KW. So Enchanted Princess can go faster sideways than that ship could travel forward
- An anchor that weighs 14 tons
- The SeaWalk glass is 28mm (1.1 inch) thick - more than 4 times thicker than the average car windshield glass

How big?

- 330m long - longer than the height of the Eiffel Tower
- 68m high - taller than London's Tower Bridge

How much?

- 600 pounds of butter used each day
- 1,500 pounds of flour is used each day to create the ship's fresh-baked bread, homemade pasta and pastry shop treats
- 4,000 pieces of art onboard
- 18,000 bottles of wine and champagne in the wine cellars
- 54,600 napkins washed per week
- 21,200 bath towels washed per week
- 250,000 eggs used per week

Medallion Class™

featuring the Medallion™

What is the Medallion?

The Medallion is a revolutionary, wearable device that enables an entirely new level of service and personalised attention onboard a MedallionClass ship and is given to all guests for free. The Medallion facilitates the enhanced guest experience but has no discernible technology – no on-off switch, no charging, no menu to navigate. The Medallion holds a guest's unique digital identity and communicates with readers onboard as well as in select ports and provides crew members with information about each guest to help them provide a better service.

What does it do?

- A streamlined embarkation and disembarkation process, giving quicker and easier access to the ship
- Enhanced interaction with crew members and other guests, e.g. staff can see guest's individual food and beverage preferences and offer a more personalised service
- On demand beverage delivery, whereby guests will be able to order drinks and have them delivered directly throughout the ship and to their stateroom
- OceanCompass, which provides interactive directions throughout the ship and allows guests to easily locate friends, family and their children
- Easy payment for merchandise, drinks, shore excursions and other onboard services
- Access for guests to their real-time itinerary via portals throughout the ship, along with events and activities taking place during their cruise
- Keyless stateroom access
- Interactive games that can be played on portals across the vessel and the top deck 'Movies Under The Stars' screen, including trivia challenges and a ship-wide digital scavenger hunt
- A selection of casino games including poker, bingo and roulette available via guests' smart devices and select portals
- And much much more!

All ships in the Princess fleet are MedallionClass.*

MedallionClass features may vary by ship, and are subject to change. Guests on MedallionClass voyages will only be able to get OceanReady within 1-2 months prior to sailing.

Dine My Way

Dine My Way is all about personalising your cruise dining experience. Customise your dining time for each day via the MedallionClass app, whether making reservations for the main dining room (which is included) or speciality restaurants (which charge a small cover charge). Have dinner at the same time each night or change it based on what works for you. Once onboard, you can order food and drinks for delivery wherever you are through OceanNow®. More options at your fingertips means less time waiting and more time to dine your way.

The MedallionClass™ App

The all-in-one app interacts with your Medallion to put the MedallionClass digital experiences at your fingertips. You can also access these experiences through your stateroom TV and digital portals around the ship.

Expedite your boarding

With OceanReady® boarding is a breeze. Save time by uploading your passport and other travel documents, take your security photo in advance. OceanReady® shifts you into holiday mode faster than ever before thanks to a streamlined arrival process that lets you board more quickly.

Find your way

OceanCompass leverages the Medallion to enable point-to-point way finding across the ship thanks to an intelligent navigation assistant – similar to GPS app. Available on portals around the ship or via the MedallionClass app, OceanCompass guides you throughout the ship, providing directional information so you can seamlessly navigate to your next location, as well as easily locate and chat with friends and family onboard using ShipMates.

Service on demand

With OceanNow, you can enjoy personalised service on-demand by ordering food, drink and retail items to wherever you are onboard. Simply open OceanNow, place your order, then sit back and relax whilst a crew member finds you. Your Medallion tells crew members your exact location - so even if you move, your order will come to you.
